LAUNCH IN 2018**

PLANO, TX (June 16, 2017) - Alliance Data (NYSE: ADS), a leading global provider of data-driven marketing and loyalty solutions, announced that its LoyaltyOne® European-based BrandLoyalty business, one of the largest and most successful data-driven loyalty marketers outside of the Americas, signed a multi-year agreement with Disney EMEA to develop the retail loyalty market throughout Europe, Middle East and Africa for Disney EMEA, to run from 2018 to 2021.

The new partnership builds on an already successful relationship between the organizations, which, since 2014, has seen several highly popular Instant Loyalty Promotions (ILPs) based around famous Disney characters and franchises successfully launched and implemented in supermarkets/hypermarkets around the world.

BrandLoyalty is a leader in transactional and emotional loyalty, creating immediate changes in consumer behavior through promotional campaign-driven loyalty programs. Focusing on shorter-term promotional loyalty programs (12-20 week periods), BrandLoyalty generates real-time customer engagement in both traditional and digital channels. By analyzing market spending trends, tailored offers are created for clients by identifying local consumer patterns against the retailer's data to identify specific target segments within the customer base. This approach enables BrandLoyalty to customize promotional programs to engage key client customer segments and drive marketing return on investment.

"This partnership with Disney provides significant opportunities for both BrandLoyalty and Disney in key markets," said Bryan Pearson, President and CEO of LoyaltyOne. "Working with Disney EMEA, BrandLoyalty will look to grow retail consumer penetration of these globally recognized brands including Disney, Marvel, Star Wars and Pixar, through its traditional and digital mobile promotional campaign-driven loyalty programs."
