ALLIANCE DATA SYSTEMS ANNOUNCES RECORD SECOND QUARTER RESULTS

* Double-Digit Growth and Record Results Across All Growth Engines * Raising 2003 Guidance

Dallas, TX, July 16, 2003 – Alliance Data Systems Corp. (NYSE: ADS), a leading provider of transaction services, credit services and marketing services, today announced record results for its second quarter ended June 30, 2003 and raised guidance for the full year.

Total second quarter revenue increased 20 percent to \$247.6 million compared to \$205.5 million for the second quarter of 2002. Net income increased 250 percent to \$11.9 million for the second quarter of 2003, or \$0.15 per diluted share, compared to \$3.4 million, or \$0.04 per diluted share, for the second quarter of 2002. EBITDA for the second quarter of 2003 increased 45 percent to \$50.0 million compared to \$34.6 million for the second quarter of 2002. Cash earnings increased 59 percent to \$17.0 million compared to \$10.7 million for the second quarter of 2002. Cash earnings per diluted share increased 50 percent to \$0.21 per diluted share compared to \$0.14 per diluted share for the second quarter of 2002. During the second quarter, the Company recorded a non-cash \$2.6 million after-tax charge primarily related to the early payoff of the Company's remaining 10 percent rate subordinated debt. (See "Financial Measures" below for a discussion of EBITDA and cash earnings.)

"Once again we are pleased to report record results for the quarter," commented Mike Parks, chairman and chief executive officer. "All three of the Company's growth engines posted strong double-digit revenue growth. Alliance continues to benefit from the numerous new client signings over the past 18 months as well as solid core growth across its business lines. This momentum continued in the second quarter, as we announced significant new private label customers, including – Eddie Bauer, Spiegel, Newport News, Stage Stores and American Home Furnishings. In our Loyalty Group, we announced the signing of a multi-year agreement with Jean Coutu Group, filling the critical, high-frequency pharmacy category in Quebec. And our Utility Services group successfully integrated its three new client signings announced last quarter. We remain confident in our future and as such we feel comfortable raising guidance for the year."

Alliance Data Systems Corp. July 16, 2003

Segment Review

Transaction Services revenue, accounting for approximately half of the Company's total revenue, increased 17 percent in the second quarter to \$151.4 million. EBITDA increased 19 percent in the second quarter to \$24.1 million. Private Label and Utility Services, two of Alliance's growth engines, benefited from the positive impact of significant new client wins both last year and in the first quarter of 2003, as well as core client gains. Powered by a 26 percent increase in statements generated as well as an increase in revenue per statement, strong double-digit revenue growth resumed sooner than anticipated following last year's pruning of non-core accounts.

Marketing Services revenue increased 16 percent in the second quarter to \$67.4 million. EBITDA increased 10 percent in the second quarter to \$11.1 million, which, while solid, was negatively impacted by a Canadian Dollar translation difference between revenues and expenses.

Specifically, revenues are generated at the time AIR MILES[®] Reward Miles are issued, but are deferred and recorded on the balance sheet at historical exchange rates. Revenues are then recognized over a period of time at this historical exchange rate. Operating costs however, are expensed in the period incurred at the then prevailing exchange rate. Due to the sharp appreciation in the Canadian Dollar during the second quarter, reported EBITDA was negatively impacted as revenues at lower historical exchange rates were matched against expenses at higher current exchange rates.

On a constant currency basis, EBITDA for the segment increased 39 percent, which demonstrates the continued strong growth of the underlying business in Canada. As expected, double-digit growth resumed in AIR MILES Reward Miles redeemed, which increased 16 percent during the second quarter. AIR MILES Reward Miles issued remained on track, expanding 7 percent during the second quarter.

Credit Services revenue increased 27 percent in the second quarter to \$98.0 million. EBITDA increased 244 percent in the second quarter to \$14.8 million. Total Private Label credit sales increased 13 percent, driving fee income and portfolio growth. Strong growth in this segment is due to the successful ramp-up of many new client programs and the ongoing success of increasing private label's share of wallet within our core client base. The segment also benefited from ongoing operating expense improvements, including refinancings at lower interest rates. Delinquencies and losses continued along normal seasonal patterns.

Outlook

The Company was able to achieve record results in the first half of 2003 despite the unfavorable impact of the Canadian Dollar appreciation and is raising guidance for the full year 2003. Revenue is now estimated to reach a minimum of \$980 million, EBITDA before stock compensation expense is expected to be at least \$180 million, and cash earnings per diluted share is expected to be between \$0.83 and \$0.85, an increase of 34 percent to 37 percent from the prior year.

Financial Measures

In addition to the results presented above in accordance with generally accepted accounting principles, or GAAP, the Company presents financial measures that are non-GAAP measures, such as EBITDA, Operating EBITDA and Cash Earnings. The Company believes that these non-GAAP measures, viewed in addition to and not in lieu of the Company's reported GAAP results, provide useful information to investors regarding its performance and overall results of operations. They are an integral part of the Company's internal reporting to measure the performance of reportable segments and the overall effectiveness of senior management. Included in this release is an estimate of the impact of foreign currency translation on EBITDA without the impact of changes in foreign currency translation rates. The calculation translates current-period foreign currency revenue and expenses at prior-period translation rates and compares the resultant EBITDA to prior-period EBITDA. Reconciliations to comparable GAAP measures are available in the accompanying schedules and on the Company's website. The financial measures presented are consistent with the Company's historical financial reporting practices. The non-GAAP measures presented herein may not be comparable to similarly titled measures presented by other companies, and may not be identical to corresponding measures used in our various agreements.

Conference Call

Alliance Data Systems will host a conference call on July 16, 2003 at 5 p.m. (Eastern) to discuss the Company's second quarter results. The conference call will be available via the Internet at www.alliancedatasystems.com. Additionally, there will be several slides accompanying the webcast. Please go to the website at least 15 minutes prior to the call to register, download and install any necessary software. The webcast will be available until August 16, 2003.

About Alliance Data Systems

Alliance Data Systems, based in Dallas, is a leading provider of transaction services, credit services and marketing services.
