**ALLIANCE DATA SELECTED BY TOYOTA TO LAUNCH NEW PRIVATE LABEL CREDIT
CARDS FOR TOYOTA AND LEXUS BRANDS, MANAGE AND GROW EXISTING
CO-BRAND CREDIT CARD PROGRAM**

Alliance Data also signs agreement to acquire Toyota's co-brand card portfolio

- Alliance Data's card services business expands its tools, data-driven loyalty and marketing expertise to benefit the automotive industry
- Card programs to leverage custom in-dealership redemption platform developed by Alliance Data and supported by its robust mobile capabilities
- Alliance Data's Epsilon business to provide additional analytics and consulting support for Toyota geared toward optimizing cardmember insights and engagement

DALLAS – Sept. 15, 2015 – Alliance Data Systems Corporation (NYSE: ADS), a leading global provider of data-driven marketing and loyalty solutions, today announced its Columbus, Ohio-based card services business, a premier provider of branded private label, co-brand, and commercial credit programs, has signed a new long-term agreement to provide private label credit card services and assume management of an existing co-brand card program in the U.S. for Toyota (NYSE: TM, www.toyota.com). Toyota is the world's top automaker and the No. 1 retail brand in the United States, selling more than 2.35 million vehicles through its network of Toyota and Lexus dealerships across the country.

Additionally, Alliance Data has entered into an agreement to purchase Toyota's existing portfolio of co-brand credit card accounts, subject to regulatory approval and customary closing conditions. Details of the purchase price were not disclosed, other than to note it is well within norms of the industry.

"The goal of this new partnership with Alliance Data is to further evolve our credit tools into loyalty tools, which will drive incremental revenue to our dealerships," said Mike Owens, president and chief executive officer of Toyota Financial Savings Bank. "With Alliance Data's deep experience in retail, along with its loyalty and marketing expertise and commitment to customer care, we're confident our credit card programs will provide value propositions that are unparalleled in the automotive industry."

Alliance Data will provide credit card marketing services for the Toyota and Lexus co-brand credit cards, and will launch new private label credit cards for both brands, utilizing customer-centric insights and analytics to increase cardmember engagement and incremental sales. Both card programs will be designed to drive brand loyalty by rewarding cardmembers for every purchase, with additional points earned for Toyota or Lexus brand purchases, such as vehicle service and parts. Earned points are redeemable toward additional Toyota and Lexus service, parts or accessories, or a customer's next Toyota or Lexus vehicle. The new private label credit cards will also offer flexible financing options.

Toyota also will use Alliance Data's advanced suite of digital and mobile solutions to create a compelling cardmember experience and engage dealerships. Alliance Data will build mobile credit apps for the Toyota and Lexus brands to offer customers a brand-centric, integrated account management and rewards experience. Alliance Data will also launch a customized dealer portal that will feature access to key dealer performance data, marketing materials, training tools and other program support materials. In addition, a direct rewards redemption capability will be leveraged to provide a level of dealership support unmatched in the industry.

Alliance Data's Epsilon business will provide in-dealership support of the card programs by identifying and communicating to current Toyota vehicle owners with personalized permission-based marketing messages, including email and direct mail. Epsilon has worked with Toyota and its dealer network since 2009, providing client relationship management (CRM) services, combining online and offline data to engage vehicle owners with highly targeted and analytically driven communications that generate ongoing sales and service transactions to build long-term owner loyalty.

Alliance Data believes that the performance of the Toyota co-brand card portfolio once acquired will be consistent with its overall co-brand credit card portfolio, and all new co-brand and private label credit card accounts will be consistent with Alliance Data's credit quality standards. Closing of the portfolio purchase is expected in Q4 2015.

"As the automotive industry leader, Toyota's objectives are clearly aligned with Alliance Data's rich history of driving loyalty and sales through an omnichannel strategy, strong value proposition, exemplary customer service and robust analytics," said Melisa Miller, president of Alliance Data's card services business. "Leveraging our credit and marketing tools, these card programs will extend the reach of the Toyota brand and exemplify its focus on quality and service while driving and reinforcing brand loyalty among its best customers—its cardmembers."

About Toyota

Toyota (NYSE:TM), the world's top automaker and creator of the Prius and the Mirai fuel cell vehicle, is committed to building vehicles for the way people live through our **Toyota, Lexus and Scion** brands. Over the past 50 years, Toyota has built more than 25 million cars and trucks in North America, where it operates 14 manufacturing plants (10 in the U.S.) and directly employs more than 42,000 people (more than 33,000 in the U.S.). Its 1,800 North American dealerships (1,500 in the U.S.) sold more than 2.67 million cars and trucks (more than 2.35 million in the U.S.) in 2014 – and about 80 percent of all Toyota vehicles sold over the past 20 years are still on the road today.

Alliance Data's Safe Harbor Statement/Forward Looking Statements

This release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements may use words such as "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "predict," "project," "would," and similar expressions as they relate to us or our management. When we make forward-looking statements, we are basing them on our management's beliefs and assumptions, using information currently available to us. Although we believe that the expectations reflected in the forward-looking statements are reasonable, these forward-looking statements are subject to risks, uncertainties and assumptions, including those discussed in our filings with the Securities and Exchange Commission.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary materially from what we projected. Any forward-looking statements contained in this presentation reflect our current views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to our operations, results of operations, growth strategy and liquidity. We have no intention, and disclaim any obligation, to update or revise any forward-looking statements, whether as a result of new information, future results or otherwise, except as required by law.

"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995: Statements in this presentation regarding Alliance Data Systems Corporation's business which are not historical facts are "forward-looking statements" that involve risks and uncertainties. For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see "Risk Factors" in the Company's Annual Report on Form 10-K for the most recently ended fiscal year. Risk factors may be updated in Item 1A in each of the Company's Quarterly Reports on Form 10-Q for each quarterly period subsequent to the Company's most recent Form 10-K.
