

Bread Financial reports third quarter 2024 results

COLUMBUS, Ohio, October 24, 2024 – Bread Financial Holdings, Inc. (NYSE: BFH), a tech-forward financial services company that provides simple, personalized payment, lending, and saving solutions, today announced financial results for the third guarter ended September 30, 2024.

Third quarter 2024

Year-to-date 2024

(\$ in millions, except per share amounts)	Total company	Continuing operations	Total company	Continuing operations
Net income	\$2	\$3	\$270	\$272
Adjusted net income ⁽¹⁾	\$93	\$94	\$361	\$363
Earnings per diluted share	\$0.05	\$0.06	\$5.37	\$5.40
Adjusted earnings per diluted share ⁽¹⁾	\$1.83	\$1.84	\$7.17	\$7.20

⁽¹⁾ Adjusted for the post-tax impact from our repurchased convertible notes, and therefore represent Non-GAAP financial measures. See "Non-GAAP Financial Measures" and "Reconciliation of GAAP to Non-GAAP Financial Measures".

\$17.8B

3Q24 Average loans

\$983MM

3Q24 Revenue

13.3%

Common equity tier 1 capital ratio

\$47.48

Tangible book value per common share⁽²⁾

- Repurchased \$262 million in principal amount of convertible notes, impacting pre-tax results by \$96 million, primarily due to the repurchase premium paid.
- Relative to the third quarter of 2023:
 - Average loans increased 1%, benefiting from new partner growth and stabilizing consumer spend.
 - Common equity tier 1 (CET1) capital ratio increased 40 basis points to 13.3%.
 - Tangible book value per common share (2) increased \$5.02, or 12%, to \$47.48.
- Third quarter delinquency rate was 6.4% and net loss rate was 7.8%.

(2) Tangible book value per common share is a Non-GAAP financial measure. See "Non-GAAP Financial Measures" and "Reconciliation of GAAP to Non-GAAP Financial Measures".

CEO COMMENTARY

"Our third quarter results demonstrated our commitment to growing our business responsibly and opportunistically allocating capital to reduce risk and improve our balance sheet. We continued to execute on our long-term funding plan by repurchasing \$262 million in principal amount of our convertible notes funded with cash on hand. Furthermore, our overall funding mix continued to improve with strong direct-to-consumer deposit growth and reduced wholesale deposit funding. We generated adjusted net income of \$93 million and adjusted diluted EPS of \$1.83 in the quarter, which excludes the \$91 million post-tax impact from the repurchased convertible notes. Our common equity tier 1 capital ratio increased 40 basis points year-over-year to 13.3%, reflecting our disciplined capital allocation.

"During the quarter, we completed the acquisition and launch of the Saks Fifth Avenue Credit Card and Saks World Elite Mastercard® Credit Card. We are excited to share our cross-channel expertise across our credit, loyalty, marketing, and data insights with this renowned brand, allowing us to deliver a strong value proposition for Saks customers.

"Consumer spending patterns have remained consistent with the second quarter as consumers made more frequent shopping trips with lower transaction sizes. Spending continues to be more heavily weighted toward non-discretionary purchases, which are enabled by our expanded co-brand and proprietary products, along with back-to-school items at apparel and discount stores. With inflation continuing to normalize, gas prices declining, growth in real wages, and a steady labor market, we are starting to see signs of stabilization in credit sales and expect a gradual economic recovery.

"We continue to execute on our mitigation strategy to offset the potential impact of the CFPB's final rule on credit card late fees, and have various pricing changes in-market including increased APRs and statement fees. While uncertainty remains surrounding the timing and outcome of ongoing litigation related to the rule, we remain confident in our ability to generate strong returns and achieve our long-term strategic objectives and financial targets regardless of the litigation outcome.

"As discussed at our investor day, we are in a position of strength with increased capital flexibility and financial resilience and are well-equipped to address uncertainty, enabling us to generate sustainable long-term value for our shareholders."

CFO COMMENTARY

"Our third quarter financial results were impacted by our strategic decision to repurchase, through separate privately negotiated transactions. \$262 million in principal amount of our convertible notes. which resulted in \$96 million of additional pre-tax expense, a \$5 million favorable tax impact, and a \$67 million reduction to equity in the quarter. To facilitate the repurchase, our subsidiary banks' boards approved a \$400 million dividend to the parent company in the quarter. After giving effect to the repurchase adjustments and gain on portfolio sale, PPNR would have decreased 5% year-over-year due primarily to lower late fees in the quarter, partially offset by a 5% year-over-year decrease in adjusted total expenses. When we issued our convertible notes in the second guarter of 2023, we also entered into capped call transactions which are designed to reduce potential dilution to our common stock and/or offset certain cash payments we may be required to make in excess of the principal amount of the convertible notes. We strategically chose to leave the full amount of the capped calls outstanding in connection with the repurchases, and therefore the capped calls remain available to potentially offset certain of the economic impacts of the convertible notes. As expected, third quarter net interest margin increased sequentially to 18.8%, reflecting typical seasonal trends.

"We continued to strengthen our balance sheet by reducing debt and dilution risk while growing our CET1 to 13.3%, representing a 40 basis point year-over-year improvement. Additionally, direct-to-consumer deposits increased 23% year-over-year to \$7.5 billion at quarter-end. Our average direct-to-consumer deposits now represent 41% of total funding, up from 35% a year ago. In October, we extended the maturity of our undrawn \$700 million revolving credit facility from June 2026 to October 2028.

"From a credit perspective, our third quarter 2024 results were consistent with our expectations, as delinquency and net loss rates are showing signs of stability, and moving in line with seasonal trends. We continue to proactively manage credit and remain cautiously optimistic for gradual improvement, versus seasonal trends, following the broader economic recovery.

"Our reserve rate of 12.2% remained stable within the range we have seen over the past seven quarters. In this challenging macroeconomic environment, we continue to maintain conservative economic scenario weightings in our credit reserve modeling and believe our loan loss reserve provides an appropriate margin of protection.

"Litigation associated with the CFPB late fee rule is ongoing and the outcome and timing of the implementation of the rule is still unknown. We continue to actively implement mitigation plans intended to limit the financial impact of the final rule on our business. Because of the time frame required for certain of these actions to roll through our existing portfolio, we expect the net impact of the rule to lessen over time.

"We remain disciplined in our commitment to our capital priorities and are confident in our ability to adapt our business to potential regulatory and economic changes while achieving strong financial results."

- Perry Beberman, executive vice president and chief financial officer

2024 full year outlook

Our 2024 outlook remains unchanged from the second quarter of 2024 and assumes no impact from the CFPB late fee rule given uncertainty surrounding the timing and outcome of the ongoing litigation.

- "Our 2024 outlook reflects slower sales growth as a result of continued moderation in consumer spending and our proactive strategic credit tightening, both of which are pressuring loan and revenue growth and the net loss rate. In addition, our outlook assumes ongoing interest rate decreases by the Federal Reserve, which will pressure total net interest income.
- Average loan growth: "Based on our current economic outlook, strategic credit tightening actions, higher gross credit losses, and visibility into our pipeline, we expect 2024 average credit card and other loans to be down low single digits relative to 2023.
- Total revenue: "Total revenue growth, excluding gains on portfolio sales, is anticipated to be down low- to mid-single digits with a full year net interest margin lower than 2023, reflecting higher reversals of interest and fees due to expected higher gross credit losses, declining interest rates, and a continued shift in product mix to co-brand and proprietary products.
- Total expenses: "As a result of efficiencies gained from ongoing investments in technology modernization and digital advancement, along with disciplined expense management, we expect our total expenses, as adjusted to exclude the \$96 million pre-tax impact from our repurchased convertible notes, would be down midsingle digits relative to 2023. Expenses are projected to be higher sequentially in the fourth quarter of 2024 versus the adjusted third quarter figure due primarily to higher sales volumes and marketing expenses.
- **Net loss rate:** "We continue to anticipate a net loss rate in the low 8% range for 2024.
- Effective tax rate: "Excluding the impact from our repurchased convertible notes, we continue to expect our full year normalized effective tax rate to be in the range of 25% to 26%, with quarter-over-quarter variability due to the timing of certain discrete items."

nm – Not meaningful, denoting a variance of 1,000 percent or more.

Third quarter 2024 compared with third quarter 2023 – continuing operations

- Credit sales were \$6.5 billion for the third quarter of 2024, a decrease of \$0.2 billion, or 3%, reflecting moderated consumer spending and ongoing strategic credit tightening, partially offset by new partner growth.
- Average credit card and other loans of \$17.8 billion were up 1%, benefiting from new partner growth and stabilizing consumer spending, while end-of-period credit card and other loans of \$17.9 billion were flat.
- Revenue decreased \$48 million, or 5%, primarily due to lower late fees resulting from our gradual shift in product mix leading to a lower proportion of private label accounts and reduced merchant discount fees resulting from lower big ticket credit sales.
- Total non-interest expenses increased \$72 million, or 14%, driven by the \$96 million pre-tax impact from our repurchased convertible notes, partially offset by a reduction in card and processing expenses of \$27 million, or 26%. Excluding the impact from our repurchased convertible notes, adjusted total expenses, which is a Non-GAAP financial measure, decreased 5%.
- Income from continuing operations decreased \$170 million primarily due to the \$91 million post-tax impact from our repurchased convertible notes, as well as a higher provision for credit losses, and lower net interest income. Excluding the impact from our repurchased convertible notes, adjusted income from continuing operations, which is a Non-GAAP financial measure, decreased 46%.
- PPNR, a Non-GAAP financial measure, decreased \$120 million, or 23%, primarily driven by the \$96 million pre-tax impact from our repurchased convertible notes. Excluding the gain on portfolio sale and impact from our repurchased convertible notes, PPNR decreased 5%.
- The delinquency rate of 6.4% increased from 6.3% in the third guarter of 2023.
- The net loss rate of 7.8% increased from 6.9% in the third guarter of 2023.
- CET1 of 13.3% increased from 12.9% in the third guarter of 2023.

Forward-looking Statements

This release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements give our expectations or forecasts of future events and can generally be identified by the use of words such as "believe," "expect," "anticipate," "estimate," "intend," "project," "plan," "likely," "may," "should" or other words or phrases of similar import. Similarly, statements that describe our business strategy, outlook, objectives, plans, intentions or goals also are forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements we make regarding, and the guidance we give with respect to, our anticipated operating or financial results, future financial performance and outlook, future dividend declarations, and future economic conditions.

We believe that our expectations are based on reasonable assumptions. Forward-looking statements, however, are subject to a number of risks and uncertainties that are difficult to predict and, in many cases, beyond our control. Accordingly, our actual results could differ materially from the projections, anticipated results or other expectations expressed in this release, and no assurances can be given that our expectations will prove to have been correct. Factors that could cause the outcomes to differ materially include, but are not limited to, the following: macroeconomic conditions, including market conditions, inflation, higher interest rates, labor market conditions, recessionary pressures or a concern over a prolonged economic slowdown, and the related impact on consumer spending behavior, payments, debt levels, savings rates and other behavior; global political and public health events and conditions, including ongoing wars and military conflicts and natural disasters; future credit performance, including the level of future delinquency and write-off rates; the loss of, or reduction in demand from, significant brand partners or customers in the highly competitive markets in which we compete; the concentration of our business in U.S. consumer credit; inaccuracies in the models and estimates on which we rely, including the amount of our Allowance for credit losses and our credit risk management models; the inability to realize the intended benefits of acquisitions, dispositions and other strategic initiatives; our level of indebtedness and ability to access financial or capital markets; pending and future federal and state legislation, regulation, supervisory guidance, and regulatory and legal actions, including, but not limited to, those related to financial regulatory reform and consumer financial services practices, as well as any such actions with respect to late fees, interchange fees or other charges; impacts arising from or relating to the transition of our credit card processing services to third party service providers that we completed in 2022; failures or breaches in our operational or security systems, including as a result of cyberattacks, unanticipated impacts from technology modernization projects or otherwise; and any tax or other liability or adverse impacts arising out of or related to the spinoff of our former LoyaltyOne segment or the bankruptcy filings of Loyalty Ventures Inc. (LVI) and certain of its subsidiaries and subsequent litigation or other disputes. In addition, the Consumer Financial Protection Bureau (CFPB) has issued a final rule that, absent a successful legal challenge, will place significant limits on credit card late fees, which would have a significant impact on our business and results of operations for at least the short term and, depending on the effectiveness of the mitigating actions that we have taken or may in the future take in anticipation of, or in response to, the final rule, may potentially adversely impact us over the long term; we cannot provide any assurance as to the effective date of the rule, the result of any pending or future challenges or other litigation relating to the rule, or our ability to mitigate or offset the impact of the rule on our business and results of operations. The foregoing factors, along with other risks and uncertainties that could cause actual results to differ materially from those expressed or implied in forward-looking statements, are described in greater detail under the headings "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the most recently ended fiscal year, which may be updated in Item 1A of, or elsewhere in, our Quarterly Reports on Form 10-Q filed for periods subsequent to such Form 10-K. Our forward-looking statements speak only as of the date made, and we undertake no obligation, other than as required by applicable law, to update or revise any forward-looking statements, whether as a result of new information, subsequent events, anticipated or unanticipated circumstances or otherwise.

Non-GAAP Financial Measures

We prepare our audited Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States of America (GAAP). However, certain information included herein constitutes Non-GAAP Financial Measures. Our calculations of Non-GAAP Financial Measures may differ from the calculations of similarly titled measures by other companies. In particular:

- In August and again in September 2024, we entered into separate, privately negotiated repurchase agreements with a limited number of convertible note holders to repurchase a portion of our outstanding \$316 million aggregate principal amount of 4.25% Convertible Senior Notes due 2028 (the Convertible Notes). From a GAAP perspective, we paid a premium to induce these repurchases which resulted in an impact to non-interest expenses. This aggregate \$96 million impact is reflected in Total non-interest expenses, with a corresponding \$5 million favorable tax impact, also reflected in Net income and consequentially our Earnings per diluted share. We have shown adjustments to these three financial statement line items, for total Company as well as for continuing operations, to exclude the impact from our repurchased Convertible Notes. We use Adjusted total non-interest expenses, Adjusted net income, and Adjusted earnings per diluted share to more clearly evaluate the ongoing operations of the Company.
- Pretax pre-provision earnings (PPNR) represents Income from continuing operations before income taxes and the
 Provision for credit losses. PPNR excluding gain on portfolio sale and impact from repurchased Convertible Notes
 then excludes from PPNR the gain on any portfolio sale in the period, as well as the inducement expense from our
 repurchased Convertible Notes in the period. We use PPNR and PPNR excluding gain on portfolio sale and impact
 from repurchased Convertible Notes as metrics to evaluate our results of operations before income taxes,
 excluding the volatility that can occur within Provision for credit losses and the one-time nature of a gain on the sale
 of a portfolio and/or the impact from repurchased Convertible Notes.
- Return on average tangible common equity (ROTCE) represents annualized Income from continuing operations
 divided by average Tangible common equity. Tangible common equity (TCE) represents Total stockholders' equity
 reduced by Goodwill and intangible assets, net. We use ROTCE as a metric to evaluate the Company's
 performance.
- Tangible common equity over Tangible assets (TCE/TA) represents TCE divided by Tangible assets (TA), which is Total assets reduced by Goodwill and intangible assets, net. We use TCE/TA as a metric to evaluate the Company's capital adequacy and estimate its ability to absorb losses.
- Tangible book value per common share represents TCE divided by shares outstanding. We use Tangible book value per common share, a metric used across the industry, to estimate liquidation value.

We believe the use of these Non-GAAP financial measures provide additional clarity in understanding our results of operations and trends. For a reconciliation of these Non-GAAP financial measures to the most directly comparable GAAP measures, please see the "Reconciliation of GAAP to Non-GAAP Financial Measures".

Conference call/webcast information

Bread Financial will host a conference call on Thursday, October 24, 2024, at 8:30 a.m. (Eastern Time) to discuss the company's third quarter results. The conference call will be available via the internet at investor.breadfinancial.com. There will be several slides accompanying the webcast. Please go to the website at least 15 minutes prior to the call to register, download, and install any necessary software. The recorded webcast will also be available on the company's website.

About Bread Financial[™]

Bread Financial[®] (NYSE: BFH) is a tech-forward financial services company providing simple, personalized payment, lending and saving solutions. The company creates opportunities for its customers and partners through digitally enabled choices that offer ease, empowerment, financial flexibility and exceptional customer experiences. Driven by a digital-first approach, data insights and white-label technology, Bread Financial delivers growth for its partners through a comprehensive suite of payment solutions that includes private label and co-brand credit cards and Bread Pay[®] buy now, pay later products. Bread Financial also offers direct-to-consumer products that give customers more access, choice and freedom through its branded Bread Cashback[®] American Express[®] Credit Card, Bread Rewards[™] American Express[®] Credit Card and Bread Savings[®] products.

Headquartered in Columbus, Ohio, Bread Financial is powered by its approximately 7,000 global associates and is committed to sustainable business practices. To learn more about Bread Financial, visit breadfinancial.com or follow us on Facebook, LinkedIn, <a href="mailto:X and Instagram.

Note: Beginning in 2024, we revised the calculation of average balances to more closely align with industry practice by incorporating an average daily balance. Prior to 2024, average balances represent the average balance at the beginning and end of each month, averaged over the periods indicated.

- (1) Return on average assets represents annualized Income from continuing operations divided by average Total assets.
- (2) Return on average equity represents annualized Income from continuing operations divided by average Total stockholders' equity.
- Return on average tangible common equity (ROTCE) represents annualized Income from continuing operations divided by average Tangible common equity.

 Tangible common equity (TCE) represents Total stockholders' equity reduced by Goodwill and intangible assets, net. ROTCE is a Non-GAAP financial measure.
- (4) Net interest margin represents annualized Net interest income divided by average Total interest-earning assets.
- (5) Loan yield represents annualized Interest and fees on loans divided by Average credit card and other loans.
- (6) Efficiency ratio represents Total non-interest expenses divided by Total net interest and non-interest income.
- (7) Double leverage ratio represents Parent Company investment in subsidiaries divided by BFH consolidated equity.
- (8) Common equity tier 1 capital ratio represents tier 1 capital divided by total risk-weighted assets. In the calculation of tier 1 capital, we follow the Basel III Standardized Approach and therefore Total stockholders' equity has been reduced, primarily by Goodwill and intangible assets, net.
- (9) Total risk-based capital ratio represents total capital divided by total risk-weighted assets. In the calculation of total capital, we follow the Basel III Standardized Approach and therefore tier 1 capital has been increased by tier 2 capital, which for us is the allowable portion of the Allowance for credit losses.
- (10) Total risk-weighted assets are generally measured by allocating assets, and specified off-balance sheet exposures, to various risk categories as defined by the Basel III Standardized Approach.
- (11) Tangible common equity over tangible assets (TCE/TA) represents TCE divided by Tangible assets (TA), which is Total assets reduced by Goodwill and intangible assets, net. TCE/TA is a Non-GAAP financial measure.
- (12) Tangible book value per common share represents TCE divided by shares outstanding and is a Non-GAAP financial measure.
- (13) Payment rate represents consumer payments during the last month of the period, divided by the beginning-of-month Credit card and other loans, including held for sale in applicable periods.
- (14) Starting with 3Q22 through 2Q23, the Net loss rate was impacted by the transition of our credit card processing services in June 2022.
